

## Travis Unified School District Technology Equipment Checkout

Naidu, Nikita

By checking out a laptop or iPad for my student, I understand I am responsible for returning the equipment (including power supply) in good working order at the termination of the school closure. Failure to return the equipment in good working order will result in me being charged for replacement or repair. My signature below acknowledges acceptance of this policy.

We expect all students to be good digital citizens and to use equipment appropriately for educational purposes. Students must follow the TUSD Student Internet Acceptable Use Policy. Files should be saved on the student's Office 365 OneDrive.

Internet filtering is installed on this equipment to block objectionable content, but no filtering is perfect, and families are responsible for monitoring their student's use of this equipment to ensure their safety.
